### Differentiators

Jeanna Hondel, is a construction management veteran. With 14 years of field experience, she has provided a wide array of construction management and inspection services. Her strong background in civil engineering, construction and client relations has led to providing engineering services in both private and public sectors, such as City of Columbus, Metropolitan Sewer District of Greater Cincinnati, ODOT, and Franklin County Engineer's Office. Project types include commercial buildings, hospitals, casinos, utilities projects, water/waste water treatment facilities, roadway improvements, bridge/heavy highway construction, traffic analysis, and disaster relief. Jeanna has worked on projects/programs ranging from \$30,000- \$400,000,000.
